adventurers rely on. Their tools were often rudimentary:

Maps were incomplete or non-existent, requiring explorers to create new

1.

cartographic records from scratch.

Navigation depended heavily on compasses and celestial bodies, which were

2.

sometimes obscured by the dense canopy.

Supply lines were tenuous, forcing teams to rely on local resources or carry limited

3.

provisions over long distances.

These factors made every step forward an achievement in itself.
